

## **- FOR IMMEDIATE RELEASE -**

### **Peters & May Continue to Lead the Market for Global Boat Transport**

Peters & May continues to make bold changes including the introduction of the Peters & May Racing brand to the Racing Logistics market.

Peters & May Racing has been established to highlight the dominance that Peters & May continues to have when it comes to moving race boats of all kind, from powerboats to race yachts, of all types and sizes.

From its inception, P&M Racing has supported the marine industry by working up partnership agreements with race teams and organisations that are mutually beneficial to both parties. Not only is Peters & May the 'Official Logistics Partner' to the P1 SuperStock Series, the Union Internationale Motonautique, and The Cowes Monte-Carlo Grand Prix 2013, but is also proud to support 12 individual powerboat racers.

Mike Lloyd, Managing Director of The Cowes Monte- Carlo Race comments, "We have chosen Peters & May as our official logistics provider, because we know they will give us and our competitors' total peace of mind".

On the sail boat side of the business Peters & May is the preferred logistics partner to Skandia Team GRB, The Transatlantic Race, The Audi Med Cup and the Global Ocean Race 2012, as well as working closely with the Extreme Sailing Series, Oracle Racing, China Team and all of the new Soto 40s.

Peters & May's continued relationship with these high profile campaigns is testament to the unbeatable service provided by the Racing Logistics teams in the UK, USA and other strategically positioned global offices. Despite high levels of competition, both new and old, Peters & May continue to lead the market in global boat transport.
